

var, let, const

var

가 /

```
var name = "eleven";
console.log(name);
// console : eleven

var name = "twelve";
console.log(name);
// console : twelve

name = "thirteen";
console.log(name);
// console : thirteen
```

let

ES6

가.

기

가 /

```
let name = "eleven";
console.log(name);
// console : eleven

let name = "twelve";
console.log(name);
// console : Identifier 'name' has already been declared

name = "thirteen";
console.log(name);
// console : thirteen
```

const

ES6

가.

1

가 /

```
const name = "eleven";
console.log(name);
// console : eleven

const name = "twelve";
console.log(name);
```

```
// console : Identifier 'name' has already been declared

name = "thirteen";
console.log(name);
// console : Uncaught TypeError:Assignment to constant variable.
```
