CSS CSS 가 , CSS
```

Automatic Numbering With Counters

```
CSS
                                     CSS
                                                      가
   ).
CSS
   • counter-reset -
                                       가
   • counter-increment -
   • content -
   • counter()
                    counters()
                                                         가
CSS
                           counter-reset
                                                           <h2>
  가
                         "Section <value of the counter>:"
                                                           가
  <h2>
   , CSS, Counters
