Vertical Navigation Bars

```
ul { list-style-type: none; margin: 0; padding: 0; } li a { display: block; width: 60px; background-color: #dddddd; }
```

- Home

- Contact
- About

A background color is added to the links to show the link area.

Notice that the whole link area is clickable, not just the text.

- `display: block;` - 블록 요소로 표시
 - `width: 60px;` - 너비를 60px로 설정

```
ul { list-style-type: none; margin: 0; padding: 0; width: 60px; } li a { display: block; background-color: #dddddd; }
```

Active/Current Navigation Link

```
ul { list-style-type: none; margin: 0; padding: 0; width: 200px; background-color: #f1f1f1; } li a { display: block; background-color: #dddddd; padding: 8px 16px; text-decoration: none; } li a.active { background-color: #4caf50; color: white; } li a:hover:not(.active) { background-color: #555; color: white; }
```

vertical Navigation Bar

In this exmple, we create an "active" class with a green background color and a white text. The class is added to the "Home" link.

Center Links & Add Borders

text-align:center <a> 가 , .

border 가 , navbar 가 . navbar 가 ,

 border-bottom 가 .

```
ul { list-style-type: none; margin: 0; padding: 0; width: 200px; background-color: #f1f1f1; border: 1px solid #555; }
li a { display: block; background-color: #dddddd; padding: 8px 16px; text-decoration: none; }
li { text-align: center; border-bottom: 1px solid #555; }
li:last-child { border-bottom: none; }
li a.active { background-color: #4caf50; color: white; }
li a:hover:not(.active) { background-color: #555; color: white; }
```

vertical Navigation Bar

In this exmple, we center the navigation links and add a border to the naviation bar.

Full-height Fixed Vertical NavBar

'sticky' () :

```
body { margin: 0; }
ul { list-style-type: none; margin: 0; padding: 0; width: 25%; background-color: #f1f1f1; position: fixed; /* Make it stick, even on scroll */ height: 100%; /* Full Height */ overflow: auto; /* Enable scrolling if the sidenav has too much content */ }
li a { display: block; color: #000; padding: 8px 16px; text-decoration: none; }
li a.active { background-color: #4caf50; color: white; }
li a:hover:not(.active) { background-color: #555; color: white; }
```

Fixed Full-height Side Nav

Try to scroll this area, and see how the sidenav sticks to the page

Notice that this div element has a left margin of 25%. This is because the side navigation is set to 25% width. If you remove the margin, the sidenav will overlay/sit on top of this div.

Also notice that we have set overflow:auto to sidenav. This will add a scrollbar when the sidenav is too long (for example if it has over 50 links inside of it).
