SummerNote ?

- SummerNote 가 .
- 가 Callback .

- <https://summernote.org/SummerNote> 가 가
- SummerNote

```

<head>
  <script src="../../resources/summernote/summernote-lite.js"></script>
  <script src="../../resources/summernote/lang/summernote-ko-KR.js"></script>
  <link rel="stylesheet" href="../../resources/summernote/summernote-lite.css">
</head>
<body>
  <div class="container">
    <textarea class="summernote"></textarea>
  </div>
  <script>
    $(document).ready(function() {

      var toolbar =
        [
          ['fontname', ['fontname']]
//
          , ['fontsize', ['fontsize']]
//
          , ['style', ['bold', 'italic', 'underline', 'strikethrough',
'clear']] //
          , ['color', ['forecolor', 'color']]
//
          , ['table', ['table']]
//
          , ['para', ['ul', 'ol', 'paragraph']]
//
          , ['height', ['height']]
//

```

```

        , ['insert', ['picture', 'link', 'video']]
//
        , ['view', ['codeview', 'fullscreen', 'help']]
//
    ];

    var setting =
        {
            height : 300
            , minHeight : null
            , maxHeight : null
            , focus : true
            , lang : 'ko-KR'
            , toolbar : toolbar
            , callbacks : {

//
                onImageUpload : function(files, editor,
weEditable) {
                    for (var i = files.length - 1;
i >= 0; i--) {
uploadSummernoteImageFile(files[i],this);
                    }
                }
            };
        $('#summernote').summernote(setting);
    });
</script>
</body>

```

Tip

- SummerNote Set, get (가)

```

//set
var markupStr = '<p>hello world</p>';
$('#summernote').summernote('code', markupStr);
//get
var markupStr = $('#summernote').summernote('code');

```
