- (CSP: Content Security Policy) (XSS) 가

- CSP

- CSP
 1. XSS
 2. ,
- CSP
- CSP
 - Strict-Transport-Security

- CSP Content-Security-Policy 가 HTML <meta> 가

```
< >
Content-Security-Policy:

< >
<meta http-equiv="Content-Security-Policy" content="default-src 'self'; img-
src https://*; child-src 'none';">
```

- CSP 가

```
#
Content-Security-Policy: default-src 'self'

#
Content-Security-Policy: default-src 'self' *. trusted.com

#
Content-Security-Policy: default-src 'self'; img-src *; media-src medial.com
media2.com; script-src userscripts.example.com

#
Content-Security-Policy: default-src https://onlinebanking.mybank.com
```

Tip

가 가 , CSP 가

- base-uri <base> URL
- child-src URL : child-src
<https://youtube.com> 가 YouTube 가
- connect-src (XHR, WebSockets EventSource)
- font-src . font-src
<https://themes.googleusercontent.com> Google
- form-action <form>
- frame-ancestors <frame>, <frame>, <iframe>, <embed> <applet> <meta>
- frame-src . child-src
- img-src
- media-src
- object-src
- plugin-types 가
- report-uri 가 URL . <meta>
- style-src script-src
- upgrade-insecure-requests URL HTTP
HTTPS URL

Troubleshooting
