The source of this article

[Javascript Object Constructors](#)

```javascript
// Constructor function for Person Objects
function Person(first, last, age, eye) {
  this.firstName = first;
  this.lastName = last;
  this.age = age;
  this.eyeColor = eye;
}

// Create a Person object
let myFather = new Person("Anthony", "Young", 50, "green");

// Display age
document.getElementById("demo").innerHTML =
"My father is " + myFather.age + ".";      // My father is 50.
```

(constructor function) .

Object Types (Blueprints) (Classes)

(JS Object Constructors) . .

"type" " " .

" " **(object constructor function)**
.

function Person() .

new   .

```javascript
// Constructor function for Person objects
function Person(first, last, age, eye) {
  this.firstName = first;
  this.lastName = last;
  this.age = age;
  this.eyeColor = eye;
}

// Create two person objects
let myFather = new Person("John", "Doe", 50, "blue");
let myMother = new Person("Sally", "Rally", 48, "green");

// Display age
document.getElementById("demo").innerHTML =
  "My father is " + myFather.age + ". My mother is " + myMother.age + ".";
  // My father is 50. My mother is 48.
```

The this Keyword

JavaScript   this   "   "   .

this   .

                  , this   ,   .
this   .

```
''this''                              .                    . ''this''                                        .
```

Adding a Property to an Object

                                                                        .

Example

```javascript
// Constructor function for Person objects
function Person(first, last, age, eye) {
  this.firstName = first;
```

```javascript
  this.lastName = last;
  this.age = age;
  this.eyeColor = eye;
}

// Create 2 Person objects
let myFather = new Person("John", "Doe", 50, "blue");
let myMother = new Person("Sally", "Rally", 48, "green");

// Add nationality to first object
myFather.nationality = "English";

// Display nationality
document.getElementById("demo").innerHTML =
  "My father is " + myFather.nationality;   // My father is English
```

myMother   (person   ) myFather   .

Adding a Method to an Object

:

Example

Adding a Property to a Constructor

.

Example

,   .

Example

(default values)   .

Adding a Method to a Constructor

.

Example

.

.
Example
changeName()   person   lastName   .

Now You Can Try:

JavaScript   **this**   myMother   "   "   person   .

Built-in JavaScript Constructors

JavaScript   (built-in constructor)   .

Example

Did You Know?

, JavaScript (primitive data types)
String, Number Boolean .
. (primitive values) .

:

new Object() {} .

new String() "" .

new Number() 12345 .

new Boolean() true / false .

new Array() [] .

new RegExp() /()/ .

new Function() () {} .
