The jQuery noConflict() Method

noConflict() $,
                    .

                                        jQuery   .

```
$.noConflict();
jQuery(document).ready(function () {
  jQuery("button").click(function () {
    jQuery("p").text("jQuery is still working!");
```

```
    });
  });
```

noConflict()   jQuery

.

```
  var jq = $.noConflict();
  jq(document).ready(function () {
    jq("button").click(function () {
      jq("p").text("jQuery is still working!");
    });
  });
```

$ jQuery   ,
$.
                    $ jQuery   ,
            "jQuery"   .

```
  $.noConflict();
  jQuery(document).ready(function ($) {
    $("button").click(function () {
      $("p").text("jQuery is still working!")
    });
  });
```
