jQuery - Traversing

What is Traversing?

Illustration explained

```
    <div>

             (parent) , 
                                                       (ancestor)
                         (parent)
                                     , <div>
  <
                                                   (child)
     <span>
                         (parent), 
                                         (child),
                                                   <div>
     (descendant)
                 (child)
                                           <div>
                                                    (descendant)
  • <span>
                                    , 
         <
                    (siblings)
                                  , 
        <b>
                        (parent)
                                           (child)
                                                      <div>
     (descendant)
                        (child)
                                                   (descendant)
  • <b>
                 , 
                                          <div>
   (ancestor)
                 (parent),
                              (grandparent),
                                                 (great-grandparent)
가
   (descendant)
                  (child),
                             (grandchild),
                                              (great-grandchild)가
```
