Egov

1. Pagination

> Java Resources > Libraries > Maven Dependencies >
egovframework.rte.ptl.mvc-3.9.0.jar > egovframework.rte.ptl.mvc > tags.ui >
pagination

2. Custom PaginationRenderer

> Java Resources > src/main/java > com.repia.apps > common > cmmn >
web - DashboardCmmnTextPaginationRenderer.java\\

```
public class DashboardCmmnTextPaginationRenderer extends  
AbstractPaginationRenderer implements ServletContextAware{  
  
    private ServletContext servletContext;  
  
    public DashboardCmmnTextPaginationRenderer() {  
        // no-op --> no-operation  
    }  
  
    public void initVariables()  
    {  
  
        firstPageLabel = "<li class=\"page-item\"><a href=\"javascript:;\">"
```

```

18:44

    onclick=\\"{0}({1}); return false;\\" class=\"page-link\">&#60;&#60;\\n</li>";
    previousPageLabel = "<li class=\"page-item\"><a href=\"javascript::;\" onclick=\\"{0}({1}); return false;\\" class=\"page-link\">&#60;&#60;\\n</li>";
    currentPageLabel = "<li class=\"page-item active\"><a href=\"javascript::;\" onclick=\\"{0}({1}); return false;\\" class=\"page-link\">{0}</a>\\n</li>";
    otherPageLabel = "<li class=\"page-item\"><a href=\"javascript::;\" onclick=\\"{0}({1}); return false;\\" class=\"page-link\">>{2}</a>\\n</li>";
    nextPageLabel = "<li class=\"page-item\"><a href=\"javascript::;\" onclick=\\"{0}({1}); return false;\\" class=\"page-link\">>&gt;</a>\\n</li>";
    lastPageLabel = "<li class=\"page-item\"><a href=\"javascript::;\" onclick=\\"{0}({1}); return false;\\" class=\"page-link\">>&gt;&gt;</a>\\n</li>";
}

@Override
public void setServletContext(ServletContext servletContext) {
    this.servletContext = servletContext;
    initVariables();
}

}

```

3. bean

1) dispatcher-servlet.xml bean

```

...
...
<!-- For Pagination Tag -->
<bean id="imageRenderer"
class="com.requia.apps.common.cmmn.web.AppsCmmnImgPaginationRenderer"/>

<!--
-->
<bean id="dashboardTextRenderer"
class="com.requia.apps.common.cmmn.web.DashboardCmmnTextPaginationRenderer"/>

<bean id="paginationManager"
class="egovframework.rte.ptl.mvc.tags.ui.pagination.DefaultPaginationManager">
    <property name="rendererType">
        <map>
            <entry key="image" value-ref="imageRenderer"/>
            <entry key="dashboardText" value-
ref="dashboardTextRenderer"/><!-- type -->

```

```

        </map>
    </property>
</bean>
<!-- /For Pagination Tag -->
...
...

```

2) bean 가 type PaginationManager
getRendererType 가 PaginationRenderer
 PaginationManager.class

```

public interface PaginationManager {
    public PaginationRenderer getRendererType(String type);
}

```

4. jsp

```

...
...
<div class="card-tools">
    <div id="projMngPaging">
        <ul class="pagination justify-content-end m-0">
            <ui:pagination paginationInfo="${paginationInfo }"
type="dashboardText" jsFunction="fn_select_linkPage" />
        </ul>
    </div>
</div>
...
...

```
