Ref

[Sass @extend and Inheritance](#)

Sass @extend Directive

```

@extend           CSS
@extend           가
Sass             .
  "Report"       "Submit"
"Report"   "Submit" @extend .button-basic CSS
                  .
                  가

```

SCSS Syntax:

```

.button-basic {
  border: none;
  padding: 15px 30px;
  text-align: center;
  font-size: 16px;
  cursor: pointer;
}

.button-report {
  @extend .button-basic;
  background-color: red;
}

.button-submit {
  @extend .button-basic;
  background-color: green;
}

```

```
    color: white;  
}
```

, CSS

CSS Output

```
.button-basic, .button-report, .button-submit {  
    border: none;  
    padding: 15px 30px;  
    text-align: center;  
    font-size: 16px;  
    cursor: pointer;  
}  
  
.button-report {  
    background-color: red;  
}  
  
.button-submit {  
    background-color: green;  
    color: white;  
}
```

@extend , HTML 가

:<button class = "button-basic button-report">Report this</ button>. 가 .button-report

@extend Sass DRY
